

The Cavendish banana is the most common kind of banana in India. The bananas we export are carefully selected by our team and then packed. In India we source the banana from Maharashtra. We have adopted 100% drip irrigation technology and have chosen a suitable area with an ideal climatic condition to cultivate the bananas. All the bananas are of same origin, variety and quality. We use hygienic containers to pack the bananas.

Colour	Green
Length	Minimum 18 cm-25(pulp to tip)
